paper is expected to be delivered not later than

treer no circumstances will orders given by employee on the office be recognized and paid, or accepted in payment of accounts.

HOUSTON, WEDNESDAY, AUGUST 30.

.. TEN FAGES TODAY.

AS EUROPE SEES US.

Mr. Oswald Ottendorfer, the proprietor of the New York Staats Zeitung, and one of the recognized great Germana in this country, has just returned from a visit to Europe and had something to say the other day as to the moral effect upon Europeans of our new departure toward imperialism.

For the past century the United States have been looked to in Europe as the best exemptication of a republican form of government in history. They have been an asylum for the lovers of liberty, an illustrious example of the possibilities of nelfgovernment, free from the suspicion of an unboly or dangerous ambition, attending through the absence of large armaments as well as through their inexhaustible resources and affording to the human race by both precept and example a new and bright political hope for the future.

In proportion as they have been so re garded they have been admired and have furnished an inspiration to the "liberals" in European governments that has been productive of many reforms.

Now, says Mr. Ottendorfer, the view has been materially changed-"the moral as well as the political influence and standing of the United States has suffered serious damage through the sudden abandonment of a National policy which has been preached and practiced by them for a hundred years." Up to the present we stood apart from other nations, as some-thing morally above them in the way of government; sow we stand with them as of the same common political clay! Mr. Us to arbitrate, the Pittsburg and Guif nav-tic same common political clay! Mr. Ottendorfer continues:

its course and following in the wake of the imperial governments of Eurone, who at least laye a gemblance of reason in those coloring are ending to a differential to the Pitts laye a gemblance of research in their colonial policy. In that they desire to lead the overliow of their population into channels of tactrown possessicus. The coinservatives, on the other hand, are rejoicing at what they consider the beginning of the end of republicate government in this country. They are easied that the United States government has by its own actions decrived the liberal battles of one of their most effective arguments. The belief seemed to be generally established in Germany that this country had entired on a path which must lead in time to a government by oligarchy or by dictatorship."

It in our war with Spain we had exhibited.

In the case of Texas it government ready to be served up to the

had here only a great cattle plain in one part and cotton fields in the other.

It is difficult to make our own people believe that such ignorance of our contiltions and of the extent and variety of our resources and business is to be found in other parts of this country, but the fact can not be disputed that we are almost wholly unknown. If our Texas people appreciated the extent of this misinformation beyond their borders as to what we have here and who and what we are, they certainly would take more energetic measures to correct these false but to us costly impressions.

Against Texas neither of the objections before mentioned could be urged.

South Texas, especially, is capable of being devoted to a large variety of cropa, crops that require only small farms. The Northern man or the foreigner will find here a field for vegetables and fruits, for tobacco, for corn, and, some claim, for wheat, not to mention crops such as sugar, rice and cotton that call possibly for large plantations and considerable outlay to be made profitable.

If the fertility of our soil, the cheapness of our lands, the healthfulness of our climate and the already accomplished diversification of crops to a considerable extent- in New England resolutions against mob vioas well as the total absence of race lance. troubles-were properly presented to the seekers in the Northwestern, the Middle South Texas coast region would soon have a teeming population!

That is what we need now-a larger pop ulation. We want our products increased our trade enlivened, our taxable wealth developed, and our industries multiplied, she will be good enough for any country. In the fall is the season to reach the prospective immigrant. He should not section, but induced to come and see for and that he will probably be-convicted. himself. To use a slang phrase, let us get "a move on" this fall

THE BOYCOTT ENJOINED.

The boycott against the Kansas City. Pittsburg and Gulf rathroad will not go. into effect, as the roads contemplating this disciplinary measure against the offending road have been enjoined by a United States court from taking such action until all the questions at lause have been thoroughly investigated by the court.

In the meantime, it will be interesting to the gulf routes and the gulf coast people to examine some of the reasons orged strictly to their own affairs, growing rien Manager Biddell of the Atchison, Topeka and Santa Fa.

> A few days ago The Post took occasion to comment somewhat upon the spectacle of the railroad magnates adopting that vehemently denounce whon used against their roads by their employes. The only reason then referred to for such an extreme course was the agreement between the Kansas City, Pittsburg and Gulf road and certain steamship lines to bring or New York by the ocean route at a smaller abroad. rate than was maintained eastward from Kansas City over the all rail route.

Traine Manager Biddell amplifies to at extent on this point. He says:

Ottenderfer continues:

The liberals are filled with regret at the levels of a nation to which they had altertack of a nation to this, the

Mr. McKinley's Dream

A dispatch from Pittsburg, Pa., says spite of his professed sympathy for the ficial considerations or arrangements can President McKinley arose at 7 o'clock yesterday morning, looked over his mail, eat a hearty breakfast and went to church. In the afternoon he took a drive and retired early. The newspaper reporter omits details of the period between the president's retiring last night and getting up this morning. It may be that he dreamed of capire, with his imperialistic self scated on the throne. Then, again, his situmbers may have been disturbed by the ghosis of Idahe miners murdered by military, white shricks of their outraged wives turned the presidential bed room into a chamber of herrors. McKinley is an accessory to the murder of every innecent man in the Idaho mining district. He will not be tried for the crime in the courts of justice, but if there by virtue in that Christianity which he hypocritically professes, he can not escape the vengeance of God.

(BY C. A. EDWARDS.)

Washington, August 26 .- (Staff Special). Yesterday I stopped with the names of the officers composing the court martial that tried and convicted Captain Carter, By reference to that list it will be observ-Philippines, nearly all the ports on the island ed that the court was composed of men

In addition to engineer and ordnance officers, who are familiar with the construction of public works, the drawing and awarding of contracts and the dissparring for wind and time until in an un- bursement of funds, there were officers of the supply departments, who also have experience with the making of contracts and the disbursement of large sums of exterprise of one or two rathroads that were money, and officers of the artiflery and constantly carrying large excursion parties infantry. Of the court, General Wilson from east of the Mississippi to the States said: "It is a body of officers and gentlemen that an accused officer, knowing he was innocent, would appear before it with Texas produced over half a million barrels perfect confidence, but before whom a

Ing.

In his reply to the briefs of the counsel for (arter filed with the attorney general, in which the competency of the court to properly estimate the value of the testinony was questioned, Colonel Barr said: 'It would not be possible in civil courts to secure a jury of like special fitness to determine the issues which were sub-mitted for their judgment. The president of the court is a trained lawyer. Two of its members belong to the engineer corps, and have been in commission thirty-seven and thirty-five years. Five of them are disbursing officers, with many years experience in dealing with just such chers as were under consideration in trial. Four of them have had large the trial. experience in the trial of cases before courts martial, one of whom has had see eral years experience as judge advocate of a military department, and all of them represent the highest intelligence and conscience of the army."

Such was the body of officers before whom Captain Carter was tried, and whom he was unanimously pronoun guilty and sentenced to be dismissed from

The trial continued for four months, the court sitting in Savannah and New York. It was contended and established by oral and documentary testimony, much Chins. It tooked too much like the real thing ficial papers of the accused, that from the outset of his long tour of duty at Savannah Captain Carter was in collusion with B. D. Greene and John F. Gaynor and others to defraud the government by so managing that they would get as may contracts as possible, the specification months for medical advice, has returned to of which were so loosely drawn as to p knastn.

Carel Headrick Kruger, a nephew of the engineer officer, so that large profits could be considered to the considered to be made; or, an outside bidder got a c tract he could be subjected to totally ferent treatment and thoroughly where he won the Syme surgical scholarship.

Dr. Azel Ames will go on record as one of all the contracts were kept in the family the greatest vaccination managers of modern as it were. All of them going to the Atlantic Contracting company, which was believed to consist of Greene, Gaynor and Carter. The cheapest materials were used and the highest prices charged.

Egyptology in the University of Chicago and available was \$170,000. There were secretary of the Chicago Society for Egyptian eral bidders, but the Gaynors or the A secretary of the Chicago Society for Egyptian lantle company were not among them. John and Edward Gaynor, his brother, The new British commander-in-chief in were present before the bids were opened. South Africa is Lieutenant General Sir Fred- and were active in trying to persuade erick William Forrester, K. C. B. He is 33 years old, the youngest man of his rank in the army.

Prince Francis of Teck has just been approached by the party \$500 if he would withdraw. It was shown that a few minutes before 12 o'clock, at which hour the bids were opened. Edward Gaynor walked to Captain Carter's doak, took therefrom an envelop lish army. Prince Francis is one of the finest and substituted another. It was substituted another, it was substituted that the bid substituted by Gaynor was a bid in the name of Anson M. Rangs, Mr. Bangs is a brother-in-law of the Gayners. That contract was awarded to Mr. Bangs. This proposal was made out by Michael A. Connoll bids, knew nothing whatever of the fa-that he had been awarded the contrac-

been completed and payment made.
In forwarding the schedule of bids to
Weshington, Carter reported that Bangs
could not do the work for the prices stated inquid for branding cattle which can be applied with a brush.

Wemen have a more favorable chance of the bid, but that, as Banga was a responsible party, he recommended the acceptance of the bid. Carter knew this before reaching their fiftleth year than men, but a less favorable one after that period.

A Wesleyan preacher named Houstaworth, as the Janace was given the contract, two as the Janace was given the contract, two A Wesleyan preacher named Houldsworth, who had preached for eighty years, died recently in the Halifax (England) aluminouse, aged 94 years. by him indersed, by forging the name of Bangs, and in this way the money reached

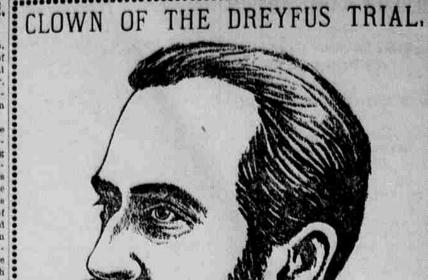

Bangs, and the the conspirators. It was shown by expert testimony that of 1896 for Savannah harbor a loss of 80 cents per square yard on 255,820 square yards, or a money loss of \$294,664, and the cost of the work done under the Bangs contract by a most liberal estimate was not over \$80,000, and for that the govern-A physician has decided that the habit we ment paid over \$162,000. Bangs is named on men have of holding their skirts up to escape as one of the co-conspirators, but I know Mr. Bangs personally and I do not believe he is guilty of any fraud on the government and knew nothing of the fraudulent contract until the evidence of it came out in the trial.

The testiment shows numerous delinquencies equally as fraudulent as that it

guencies equally as fraudulent as that siven above, and in addition it was eatablished that Carter was in the habit of padding the pay rolls with the names of men who were at no time employed and using the money for illegal purposes. It was also shown that he was in the habit of absenting himself from his station without the leave or knowledge of his superiors, whom he systematically deceived by having the chief clerk telegraph to Washington his presence at his station. There were a sufficient number of these minor delinquencies, and of such character, as to warrant his condemnation and dismissal from the army regardless ereignty has been reconstructed. other States to manufacture will never give us true or lasting prosperity.

There is food for thought in those two sentences. They tell the whole story. No people can attain permanent prosperity if they are content to let others work into the finished product their raw material. All over the South cotton mill companies. No heing organized. Why not one here and diamissal from the army regardless of the greater crime of defrauding the government of nearly \$2,000,000. It was upon these minor offenses that Colonel Davis advised Carter's arraignment, believing them to be sufficient to secure his diamissal, but which would not send him to leaders think and and the republican leaders think and and the republican leaders think and and the republican

posed upon him.
In passing, I may as well state that it is the opinion here that the case was shunted to Colonel Davis and taken out of the regular channel for a purpose. This of the regular channel for a purpose, of the same Colonel Davis who has served the administration so well in the Alger relief commission and the beef court of relief commission and the beef court of the judge advocate. In all inquiry as the judge advocate. In all his questions to witnesses before these bodies he made them in such a way as to suggest the defense and not the prosecu-

Alphonse Bertillon is the clown of the Dreyfus trial. But he is not a good tempered, amusing clown, such as travels with a courtry circus and has a place in the world just because he never does anything serious. Far from it. M. Bertillon has become known as a clown for procisely the opposite reason-because he tried to do something serious. And though he is prolix and stupid, and malicious and afflicted with a mania as weird as anything even France has to present, he still remains the clown, and his act is the clown's act in the Dreyfus vaudeville circus.

It was different with Bertillon before he became entangled in the present case. Then his name was one of honor. He was known in every civilized country for the good work he had accomplished. The anthropometric system by which criminals are identified was worked out by him to such perfection that detectives and chiefs of police out side France had nothing to do but adopt it bodily as soon as they were convinced of its merit, and the conviction came at first sight. It is true that Max Nordau says that this system of measurements was devised and outlined by Hertillon's father, a well known Parisian physician in his day, but still it was Alphonse Bertillon who made it a practical part of the methods of prevention of crime. Only a short time ago he was decorated with the German Order of the Crown of Emperor

It was just an extension of the m easurement idea-in late years apparentby become a mania with him to the Drevfus documents which produced his system of identifying handwriting. Bertillen was not in any way qualified to rank as a handwriting expert beside the other experts who examined the documents, and gave their opinion that Esterhazy was the author of the bordereau, but for that reason he was all the more acceptable to the conspiratora against Dreyfus.

With Bertillon the first "fact" was his theory that Dreyfus had-written the bordereau. That was the starting point. But clearly the handwriting was not the ordinary handwriting of the accused man. It looked remarkably like the handwriting of Ester hazy. Consequently the next conviction that Bertillon reached was that Drey fus had forged the paper in imitation of Esterhazy's handwriting. That being settled the brilliant expert had next of detection! was his reply.

how Dreyfus had done what he did. Here is where the Bertillon system came in. He measured and measured, and announced a scheme by which through mechanical aids any writing could be forged. That child of his own crasy genius he announced as the system which Dreyfus had devised and used. "Dreyins was so clever," he said. Did the judges want proof? Why, there was the Dreyfus forgery to prove the system?

This is Bertillon. As far as the outside world can tell he and his system are the best that the cuemies of Dreyfus can bring forward to show that the ex-prisoner of Devils Island is a traiter.

contract price. Subtracting this from the contract of 1896 for Savannah barbor a loss of 80 cents per square yard on 255,850 square parts, or a money loss of \$294,864, and for the contract of 1896 for Cumberiand Sound a loss of 85 cents per square yard on 25,850 square parts, or a money loss of \$294,864, and for the contract of 1896 for Cumberiand Sound a loss of 85 cents per square yard con 446,162 square yards, or a money loss of \$424,488. It is to be noted that only \$345,000 has been actually paid on this contract. It will be interesting to note that the same computation the contract of the same computation in the flag.

Ident, who only lately exclaimed who will have have in progress peter administration in petern administration in petern tadministration in p Sound a loss of 65 cents per square yard on 446,162 square yards, or a money lors of \$424,488. It is to be noted that only \$45,000 has been actually paid on this contract. It will be interesting to note here that by the same computation the loss on the contract of 1892 for Savannah harbor was 80 cents per square yard on 1.363,572 square yards, or a lose of \$1,-000,857, making a total of \$1,720,000, liter-ally stolen from the government on brush mattresses alone during these three con-

Reference might be made to other essential facts brought out in the testimony catablishing fraud and conspiracy, but sufficient has been cited to show the character of this remarkable case. End of chapter number two.

There is a difference between hauling

down the flag where once the Nation's novereignty has been recognized and hauling destard crime has been committed. The cultium.

Of the extent of the loss sustained by the government by the conspiracy of which Carter was the head and moving spirit, sharing in the fruits of the robbery. Colonel Barr said, in closing his address to the court: "Let us take a fair estimate of the court prices, and, by comparing that with the cortract prices, get a rough estimate of the amount that the government has been robbed of by the accused and by Greene and Gaynor since isss, when the accused let his first couract. A fair cost price for mattresse since 1892 is, from cost price, and, by comparing that with the cottract prices, get a rough estimate of the amount that the government has been robbed of by the accused and by Greene and Gaynor since 1888, when the accused let his first contract. A fair cost price for mattresse since 1892 is, from price for mattresse since 1892 is, from

the testimony quoted, about 11 cents per territory, and the scapart they want is square yard. Allowing 57 per cent profit, Skaguay. And what is the administration doing about it? We are told that the prescent per square yard as a fair contract price. Subtracting this from that price paid, as shown in the table given will haul down the flag?" is considering petent administration in doubt whether the manufacture of the price paid, as shown in the table given will haul down the flag?" is considering petent administration in doubt whether the manufacture of the price paid, as shown in the table given will haul down the flag?" is considering the petent administration and scandals chis reculent and peters.

Why this favoritism to the "bloody Britisher?" The excuse given is that the boundary is in dispute, but this is a strange excuse for allowing the British to occupy the territory in dispute after it has for years been occupied by our own country. The cession treaty made with Russia in 1867 established the eastern boundary of Alaska near the south and of the territory as three marine leagues from the coast line, or about thirty-five miles, and the territory recently appropriated by our friendly cousins across the sea is reported to be within this distance of the coast. Since the gold rush set in Great Britain, thinking something valuable was getting away from her, has set up the claim that the coast line in the treaty meant the coast. Since the gold rush set in Great Britain, thinking something valuable was getting away from her, has set up the claim that the coast line in the treaty meant the coast. Since the gold rush set up the claim that the coast line in the treaty meant the coast line of the fringe of islands near the coast. There were under the suicided in the country and not the coast of the continent. This same the coast is the coast of the continent. This and not the coast of the continent. This cause which able proport ereignty has been recognized and hauling it down where it has been hoisied in the name of conquest. Will those who harken to the cry, "Whe will haul down the flag" care to see the difference? The republican leaders think not, and they therefore will doubtless adopt the cry as the theme for next year's campaign. But while the showers of pyretechnic adjectives and the strenuous appeals to patriotism have hardly commenced, it is well to call attention to an event of recent occurrence, in which the flag has been hauled down, and that, ice, on soil over which the sovereignty of the country has long been recognized. In that wild, desolate waste of Alaska this desiated crime has been committed. The republicans are reing line of the fringe of islands near the coast, like islands near the coast, and not the coast of the continent. This seems to be the flimsy pretext of our triendly cousins for pulling down the flag and not the coast of the continent. This seems to be the flimsy pretext of our triendly cousins for pulling down the flag and not the coast of the continent. This seems to be the flimsy pretext of our triendly cousins for pulling down the flag and not the coast of the continent. This seems to be the flimsy pretext of our triendly cousins for pulling down the flag and not the coast of the united States of America, and that tributes to nof this crime is tributes to nof this crime is tributes to nof this crime is tributes. And the united States of America, and that when the flag and hot with sinding the words of mineral coast when he cast of whole world. "Who will have dead of a large and the world who world. "Who will have dead and all went the flag and the world when the flag?" And yet, instead of shrings the president does nothing our resident when he cast when the flag?" And yet, instead of shrings the world. "Who will have been and the stream of the world." Who will have call attention the shade of the whole world. "Who will have call attention to an event of rocent occurrence, in which the flag have result

go'll save the heariless argument of can-ron and muskerry?

If the republicans are going into a capt-raign on the theme. "Who will pull down the flag?" they should at least be con-sistent and not by their actions qualify their battle cry so that 't should read: "Who but Great Britain shall haul down the flag?"

Centenary of Washington's Burial.

race trouble is being greatly the continued publications from the South about lynch from the South about lynching gro outrages. The fact is got that if every killing of white made the subject of a sensalise patch, that the papers would be for nothing class. But let a patch, that the papers would be for nothing class. But let a negro be killed for any cause and it is sent North as another outrage, which the people of the ern country caserly devour as a cxample of Southern barbarity. The suggestion is made by men in the North that it was good thing for the Southern ignore lynching or at least the tising the weakness or virility, it might be termed, to an entrank of New England. If the North land press then wanted sensal

crank of New England. If the New land press then wanted sensitive counts of lynchings in the South could send their own representative to hunt them up. Even where no thought of lynching every disabout a negro is headed in the above here as "Whites and Blood Hunting for the Criminal," or Whites Are Arming to Attack the Of course if the whites don't the fall and there is no lynchis the law takes its own course, rection is made, and the matter souten. The fact is the South tisses its own lynchings, a thing the has ceased to do years ago. A. W.

Warriors as President Memphis Commercial-Appeal.

The report now and then beard lemocrats contemplated nomination as their candidate for president course, absurd, because Devey b b to permit the politicians to use he as campaign capital, if for no etseson. He has honor enough. Neveless, we are not as a nation death fondness for our war herce, as a seen by the record, but, like Essission to the clevate to high less the second second or the clevate to high less the second se do not elevate to high places the be

the sea.

People can not help admiring to Ripe scholarship and wise states are well enough in their way, but can not instantly and forgefully a themselves to the masses as can a hibition of physical braver. Ich Carlisle or Grover Cleveland can down Broadway unnoticed; John Livan is followed by a crowd. But p though a hero, is not a presidential bility. The scadeg is never seriously sidered as a political quantity by the lubber. Besides this, Dewey is a my can in politics.

tubber. Hesides this, Dewey is a re-can in politics.

If the war spirit is infamed it ca-around Colonel Bryan. He buckle a sword in defense of his county is dered his services, putting to shap cravens who were and who are yet aging insurgents to shoot down the low countrymen. Mr. Bryan did not war, but he went far enough to that he could be depended on in a need.

Sectionalism in the Was Indianapolis News.

Fitzhugh Lee, who was a perwhen he returned from Cubs, and w the popular mind, was to go back to at the head of conquering legion, been quietly shelved. Other general happen to vote right or to be per favorites are put to the front. I governor of a province, which means he is neither governor of Cuba per description.

ernor of Havana, and he is compared of the public eye.

And now, in raising these serments, instead of correcting the manifestly look like have disclaim the difference is caphasized by in the recruiting centers for svery these regiments in the North, as the series with the impossible for Section ernor of Havana, and he is com practically impossible for Seether to be in them. The president's po

wrong in this, and i is a wrong to come back to plagu him. If i des will not be for lak of invintes. The Philippine ampaign eight be fought by peop) from ore peoputry, nor should its reserve regarded as a sectional mater. It the brief brush in juba is rocks to as if military opertions lad been not merely as a setteral matter, a political one. None but recon have been put or guard, and the have been seducisly drawn from
